PROFILE

B.Tech student with a strong interest in web development, programming, and emerging technologies. Skilled in building responsive and user-friendly web applications using HTML, CSS, JavaScript, and Python. Adept at problem-solving, learning new technologies quickly, and developing practical solutions through creativity and analytical thinking. Passionate about continuous learning, innovation, and contributing effectively through real-world projects and collaborative environments.

WORK EXPERIENCE

Frontend Web Development Projects | Self Learning
2025 – Present

- Developed a personal portfolio website using HTML, CSS, and JavaScript
- Built responsive UI layouts and navigation sections for better user experience
- Created beginner web applications including Digital Clock, Stopwatch, Movie Search App, and To-Do List
- Integrated GitHub project hosting and resume download features into portfolio
- Used Git and GitHub for version control and project management
- Practiced debugging, UI design, and responsive web development concepts

FRONTEND DEVELOPER & TECHNICAL PROJECT CONTRIBUTOR | INDEPENDENT PROJECTS

2025 – Present

- Developed responsive and interactive web applications using HTML, CSS, JavaScript, and Python
- Designed and maintained a professional portfolio website with dynamic UI elements and optimized user experience
- Utilized Git and GitHub for version control, project collaboration, and deployment workflows
- Gained practical exposure to responsive web design, debugging, and frontend development practices
- Continuously improving problem-solving skills and exploring modern web technologies through self-learning
